

LED Silicone Neon Flex

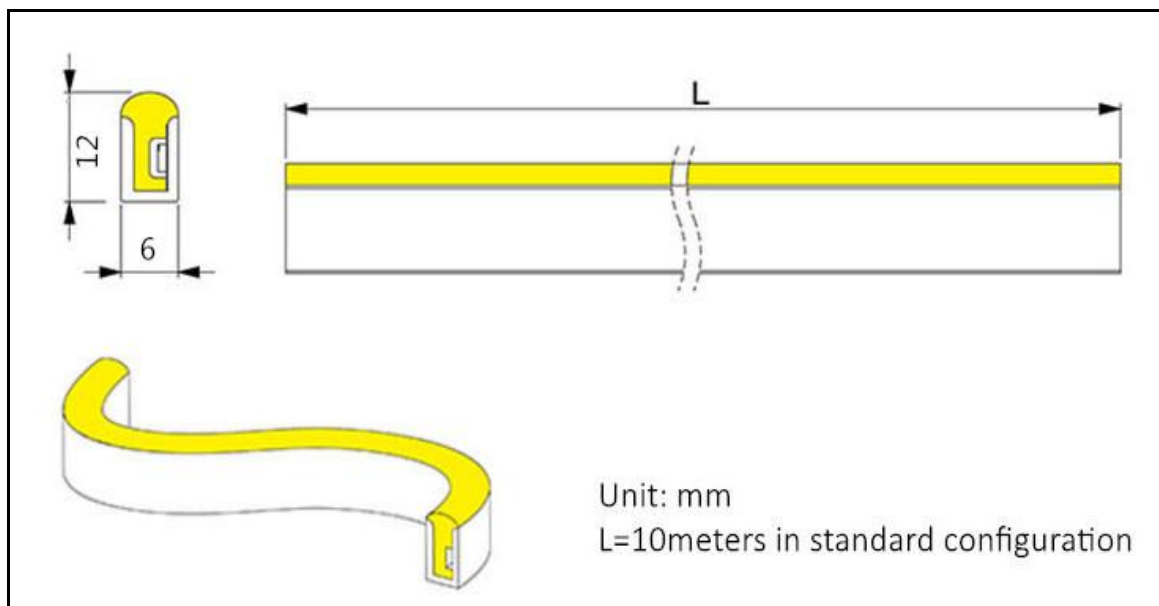

LED Silicone Neon Flex

P/N: NF01-120X-24

This LED Neon Flex is a domed version which looks like a classical neon tube. Can be bent in a horizontal plane so you can easily make shapes.

Dimensions(mm):

Features & benefits

- Horizontally bendable
- Enhanced 2835 LED especially for strip products
- Min. bending diameter 50 mm
- LM80 international certificate for LEDs
- Silicone extrusion
- UV and yellowing resistant
- IP68 and salt-mist proof
- Flexible and can be cut in multiples of 3/6 LEDs

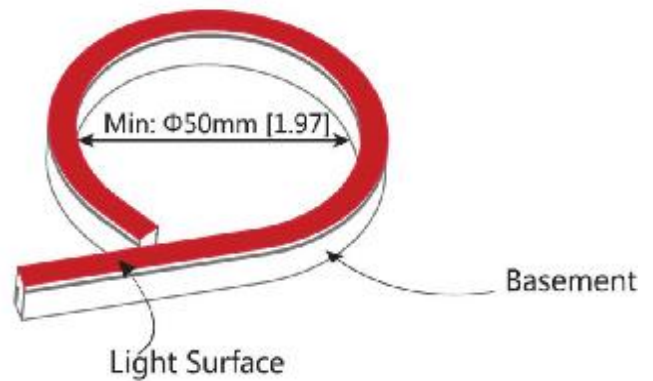

Application

- LED Signage
- Indoor/Outdoor decoration lighting
- Contour application

Technical information

Colors available:	
Light output:	450lm
Voltage:	24VDC
Power:	9W/m
LED type:	2835 SMD
LED QTY:	120 LED/m
Chip Brand:	Epistar
Beam Angle:	180° degree
IP Rate:	IP68
Operating temperature	-25°C~60°C
Demension:	50,000*06*12mm
Cutable Length	50mm, with Black point symbol
Installation	Bracket
Driving Method:	Contant Voltage Drive
Certification:	CE and RoHS compliant
Life time:	50,000hrs
Warranty:	3 Years

Bending

Packing information

Roll: 5 meters (net weight: 0.45 kg)

Box: 30 rolls (net weight 13.5 kg)

Carton Size: 43*35*28 cm
