

SS-245

LCD Precision Soldering Station

Pro'sKit®

Professional Tool Solutions Since 1991

C245-3.2K

Product Features

- High-power output reaches 500°C in less than 10 seconds for fast startup.
- Lightweight pen-style handle delivers superior comfort and precise control.
- Integrated C245 (JBC system) cartridge heater optimized for precision soldering.
- Wide input voltage supports reliable operation worldwide.

Specification	SS-245 (H/E/B/C)
Voltage	AC 110–240V, 50/60Hz
Temperature Range	90°C–500°C / 194°F–932°F
Power	192W (TBC)
Display	Color LCD
Heating Element	C245 Series Integrated Plug-In Heating Element
Temperature Presets	3 Sets
Temperature Unit Selection	°F / °C
Temperature Calibration	Yes
Sleep Timer	0–9999 sec.
Auto Shut-Off Timer	0–9999 sec.
Language Options	Chinese / English / Polish
Other Functions	Screen brightness adjustment, button backlight, sound settings, and factory reset
Power Cord	1.4m, 3 × 0.75 mm², plug types: H / E / B / C
Product Dimensions / Weight	150 × 100 × 100 mm / 700 g
Packaging	Color Box
