

★★★★★ EXTENSION CABLE FOR HEADPHONES

If you want to enjoy more freedom of movement by extending your headphone cable, it must not be necessarily replaced with a longer cable. In this case, we recommend the in-akustik mp3 extension cable. These are fitted at one end with a 3.5-millimeter jack and the other end with a 3.5-millimeter plug, and can be used as a connector between the headphones and the playback device.

KEY-FEATURES

- ★ Conductors made of high-purity OFC copper
- ★ Foil shielding
- ★ 24c gold-plated contacts
