

tesaflex® 4163

Multipurpose Soft PVC Premium

PRODUCT INFORMATION

Product Description

tesaflex® 4163 permits is a special formulated Soft PVC tape with a good film flexibility. Due to the UV stable acrylic adhesive it is perfect suitable for permanent applications.

Main Application

tesaflex® 4163 is universal useable and exceptionally qualified for general jobs like:

- Installation
- Repairing
- Marking
- Splicing
- Bundling

Technical Data

■ Backing material	Soft PVC	■ Tensile strength	30 N/cm
■ Type of adhesive	acrylate	■ Temperature resistance	105 °C
■ Total thickness	130 µm	■ UV-resistance	104 Weeks
■ Adhesion to steel	1.8 N/cm	■ Dielectric breakdown voltage	7000 volt
■ Elongation at break	250 %		

Properties

- Certified according to US 302

Additional Info

It conforms to US safety standard 302. The isogenogrey colour is perfect suitable for instalation of water pipes.
