# RASPBERRY PI 5 DIN RAIL HOUSING

Maximum protection and individual active and passive cooling for your projects

Discover our latest DIN rail enclosure for the Raspberry Pi 5, specially designed to mount your Raspberry Pi securely and accessibly. With precise cut-outs for all ports and additional space for expansion, this enclosure fits your project requirements perfectly.

The highlight: A transparent, removable panel allows quick access to your device, while an additional panel with integrated fan ensures effective cooling. The package is completed by passive heat sinks that ensure optimum heat dissipation. With our housing, your Raspberry Pi 5 is ideally equipped for any challenge.
