SECTI	ON 1: Identification of the substance	/mixture and of the company/unde	ertaking			
1.1.	Product identifier	Olej silikonowy płyn				
	Substance / mixture	mixture				
1.2.	.2. Relevant identified uses of the substance or mixture and uses advised against					
	Mixture's intended use					
	isolation, lubrication, sealed					
	Mixture uses advised against					
	The product should not be used in ways					
1.3.	Details of the supplier of the safety	data sheet				
	Distributor					
	Name or trade name	Transfer Multisort El	Transfer Multisort Elektronik Ltd.			
	Address	Birmingham Coleshi Coleshill	Birmingham Coleshill House Suite 1C, 1 Station Road, Coleshill			
		United Kingdom				
	Phone	+44 1675790026				
	E-mail	office@tme-uk.eu	office@tme-uk.eu			
	Manufacturer					
	Name or trade name	AG TermoPasty Grze	egorz Gąsowski			
	Address	Kolejowa 33 E, Soko	oły, 18-218			
		Poland				
	Identification number (CRN)	200133730				
	VAT Reg No	PL9661767714				
	Phone	862741342				
	E-mail	biuro@termopasty.p	bl			
	Web address	www.termopasty.pl				
	Competent person responsible for the safety data sheet					
	Name	AG TermoPasty Grze	egorz Gąsowski			
	E-mail	biuro@termopasty.p	bl			
1.4.	Emergency telephone number					
European emergency number: 112						

#### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

Classification of the mixture in accordance with Regulation (EC) No 1272/2008

The mixture is not classified as dangerous according to Regulation (EC) No 1272/2008.

Full text of all classifications and hazard statements is given in the section 16.

#### Most serious adverse physico-chemical effects

Highly flammable liquid and vapour.

#### Most serious adverse effects on human health and the environment

May be fatal if swallowed and enters airways. Causes skin irritation. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure. Suspected of damaging fertility. Toxic to aquatic life with long lasting effects.

#### 2.2. Label elements

none

#### 2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended.

🖊 Termo Pasty

according to Commission Regulation (EU) 2020/878 as amended

#### Olej silikonowy płyn

Creation date Revision date 17th February 2023

Version

12.0

#### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

Chemical characterization

The substance specified below.

Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment

none

#### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

Do not perform artificial respiration without self-protection (e.g. a mask). Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

#### If inhaled

Take care of your own safety, do not let the affected person walk! Terminate the exposure immediately; move the affected person to fresh air. Beware of the contaminated clothes. Depending on the situation, call the medical rescue service and ensure medical treatment considering the frequent need of further observation for at least 24 hours.

#### If on skin

Remove contaminated clothes. Wash the affected area with plenty of water, lukewarm if possible. Soap, soap solution or shampoo should be used if there is no skin injury. Provide medical treatment if skin irritation persists. Rinse skin with water or shower.

#### If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person.

#### If swallowed

If the affected person vomits, make sure to prevent inhalation of the vomit (as there is a danger of lung damage after inhalation of these liquids in the airways also in infinitesimal amount). Ensure medical treatment considering the frequent need of further observation for at least 24 hours. Bring an original container with the label and the Safety Data Sheet of the given substance as appropriate.

#### Most important symptoms and effects, both acute and delayed

If inhaled

4.2.

Cough, headache. May cause drowsiness or dizziness.

If on skin

Causes skin irritation.

If in eyes Not expected. If swallowed

Irritation, nausea.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

#### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

Unsuitable extinguishing media

Water - full jet.

#### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

according to Commission Regulation (EU) 2020/878 as amended

#### Olej silikonowy płyn

Creation date Revision date

Version

12.0

#### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Closed containers with the product near the fire should be cooled with water. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

17th February 2023

Provide sufficient ventilation. The substance is flammable. Remove all ignition sources. Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Do not inhale mist/vapours/spray. Prevent contact with skin and eyes.

#### 6.2. Environmental precautions

Do not allow to enter drains. Prevent contamination of the soil and entering surface or ground water.

#### 6.3. Methods and material for containment and cleaning up

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents.

#### 6.4. Reference to other sections

See the Section 7, 8 and 13.

#### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Prevent formation of gases and vapours in flammable or explosive concentrations and concentrations exceeding the occupational exposure limits. The product should be used only in the areas where it is not in contact with open fire and other ignition sources. Use non-sparking tools. Use of antistatic clothes and footwear is recommended. Do not inhale mist/vapours/spray. Prevent contact with skin and eyes. No smoking. Obtain special instructions before use. Wash hands and exposed parts of the body thoroughly after handling. Do not handle until all safety precautions have been read and understood. Use only outdoors or in a well-ventilated area. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection. Ground and bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Take action to prevent static discharges. Avoid release to the environment.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. Do not expose to sunlight. Store locked up. Keep container tightly closed. Keep cool.

#### The specific requirements or rules relating to the substance/mixture

Solvent vapours are heavier than air and accumulate especially near the floor where they may form an explosive mixture with the air.

## 7.3. Specific end use(s) not available

#### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

#### 8.2. Exposure controls

Follow the usual measures intended for health protection at work and especially for good ventilation.

Eye/face protection

Protective goggles.

#### Skin protection

Hand protection: Protective gloves resistant to the product. When choosing appropriate thickness, material and permeability of the gloves, observe recommendations of their particular manufacturer. Observe other recommendations of the manufacturer. Other protection: protective workwear. Contaminated skin should be washed thoroughly.

according to Commission Regulation (EU) 2020/878 as amended

#### Olej silikonowy płyn

Creation date	17th February 2023		
Revision date		Version	12.0

#### **Respiratory protection**

Mask with a filter against organic vapours in a poorly ventilated environment. **Thermal hazard** Not available. **Environmental exposure controls** 

Observe usual measures for protection of the environment, see Section 6.2. Collect spillage.

#### **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

	Physical state	liquid
	Colour	colourless
	Odour	without fragrance
	Melting point/freezing point	-50 °C
	Boiling point or initial boiling point and boiling range	data not available
	Flammability	data not available
	Lower and upper explosion limit	data not available
	Flash point	data not available
	Auto-ignition temperature	data not available
	Decomposition temperature	150 °C
	рН	data not available
	Kinematic viscosity	data not available
	Solubility in water	data not available
	Solubility in fats	data not available
	Partition coefficient n-octanol/water (log value)	data not available
	Vapour pressure	0,1
	Density and/or relative density	
	Density	0,97 g/cm <sup>3</sup>
	Relative vapour density	data not available
	Particle characteristics	data not available
	Form	liquid
•	Other information	
	Evaporation rate	non-applicable

#### **SECTION 10: Stability and reactivity**

10.1.	Reactivity
	The substance is highly flammable.
10.2.	Chemical stability
	The product is stable under normal conditions.
10.3.	Possibility of hazardous reactions
	Unknown.
10.4.	Conditions to avoid
	The product is stable and no degradation occurs under normal use.
10.5.	Incompatible materials
	Protect against strong acids, bases and oxidizing agents.
10.6.	Hazardous decomposition products
	Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

#### **SECTION 11: Toxicological information**

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Inhalation of solvent vapors above values exceeding exposure limits for working environment may result in acute inhalation poisoning, depending on the level of concentration and exposure time. No toxicological data is available for the substance.

9.2.

according to Commission Regulation (EU) 2020/878 as amended

#### **SECTION 12: Ecological information**

#### 12.1. Toxicity

Acute toxicity

Toxic to aquatic life with long lasting effects.

- 12.2. Persistence and degradability not available
- **12.3. Bioaccumulative potential** Not available.

12.4. Mobility in soil

#### Not available.

#### 12.5. Results of PBT and vPvB assessment

Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.

# 12.6. Endocrine disrupting properties The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. 12.7. Other adverse effects

Not available.

#### SECTION 13: Disposal considerations

#### **13.1.** Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

#### Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

#### Information about data sources used to compile the Safety Data Sheet

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from the manufacturer of the substance / mixture, if available - information from registration dossiers.

#### The changes (which information has been added, deleted or modified)

The version 12.0 replaces the SDS version from 16 February 2023. Changes were made in sections 2, 12 and 16. More information

Classification procedure - calculation method.

#### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
