

SAFETY DATA SHEET**PRF Butangas**

The safety data sheet is in accordance with Commission Regulation (EU) 2020/878 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

SECTION 1: Identification of the substance / mixture and of the company / undertaking

Date issued 05.07.2017

Revision date 15.11.2023

1.1. Product identifier

Product name PRF Butangas

Article no. PIBUTA40

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance / mixture Filling bottle for gas pistols PC-TEC-OTH Other products for chemical or technical processes

1.3. Details of the supplier of the safety data sheet

Company name Taerosol Oy

Postal address Hampuntie 21

Postcode 36220

City Kangasala

Country Finland

Telephone number +358 33565600

Website www.taerosol.com

Enterprise No. 02847686

1.4. Emergency telephone number

Emergency telephone Telephone number: 112 / Finnish Poison Information Center: 0800 147 111, 24/7

SECTION 2: Hazards identification**2.1. Classification of the substance or mixture**

Classification according to Regulation (EC) No 1272/2008 [CLP / GHS] Aerosol 1; H222
Aerosol 1; H229

Substance / mixture hazardous properties	May explode if heated Vapours may form explosive mixture with air.
Additional information on classification	For the full text of the statements mentioned in this Section, see Section 16.

2.2. Label elements

Hazard pictograms (CLP)

Signal word	Danger
Hazard statements	H222 Extremely flammable aerosol. H229 Pressurised container: May burst if heated.
Precautionary statements	P102 Keep out of reach of children. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P211 Do not spray on an open flame or other ignition source. P251 Do not pierce or burn, even after use. P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50 °C / 122°F.

2.3. Other hazards

PBT / vPvB	See section 12.5
Health effect	See section 11.2

SECTION 3: Composition / information on ingredients

3.2. Mixtures

Substance comments	No dangerous ingredients according to Regulation (EC) No. 1907/2006. Aerosol propellants: Propane Butane Isobutane
--------------------	---

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation	If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER or doctor / physician.
Skin contact	Rinse skin with water/shower. Treat frost-bitten areas as needed. When symptoms persist or in all cases of doubt seek medical advice.
Eye contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.
Ingestion	DO NOT induce vomiting unless directed to do so by a physician or poison control centre. Immediately call a POISON CENTER or doctor/physician.

4.2. Most important symptoms and effects, both acute and delayed

General symptoms and effects	The product causes burns of eyes, skin and mucous membranes. Contact with vapour causes burns to skin and eyes and contact with liquid causes freezing. Ingestion causes burns of the upper digestive and respiratory tracts.
------------------------------	---

4.3. Indication of any immediate medical attention and special treatment needed

Medical treatment	Treat symptomatically.
-------------------	------------------------

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media	Foam
Improper extinguishing media	Water spray

5.2. Special hazards arising from the substance or mixture

Fire and explosion hazards	Heating may cause an explosion. Vapours may form explosive mixture with air.
Hazardous combustion products	Carbon dioxide (CO ₂) Carbon monoxide (CO)

5.3. Advice for firefighters

Personal protective equipment	Protective equipment and precautions for firefighters In accordance with the requirements of EN 469, firefighter's clothing with a helmet, protective boots and gloves provides a basic level of protection against chemical accidents. In case of inadequate ventilation wear respiratory protection. See section 8.2
Fire fighting procedures	Use water spray to cool unopened containers. In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures	Eliminate all ignition sources if safe to do so. Evacuate area. Stop leak if safe to do so. Ensure adequate ventilation. Use personal protective equipment. See section 8.2
For emergency responders	Use personal protective equipment. See section 8.2

6.2. Environmental precautions

Environmental precautionary measures	Try to prevent the material from entering drains or water courses.
--------------------------------------	--

6.3. Methods and material for containment and cleaning up

Containment	Prevent further leakage or spillage if safe to do so. Pay attention to the spreading of gases especially at ground level (heavier than air) and to the direction of the wind.
Clean up	Not applicable.

Other information	Non-sparking tools should be used.
-------------------	------------------------------------

6.4. Reference to other sections

Other instructions	See section 7, 8, 13.
--------------------	-----------------------

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Handling	Remove all sources of ignition. Take precautionary measures against static discharges. Non-sparking tools should be used. Ground and bond container and receiving equipment. Keep away from oxidising agents and strongly acid or alkaline materials. Try to prevent the material from entering drains or water courses. Handle in accordance with good industrial hygiene and safety practice. Do not taste or swallow. When using, do not eat, drink or smoke. Wash hands before breaks and immediately after handling the product. Use only outdoors or in a well-ventilated area.
----------	---

7.2. Conditions for safe storage, including any incompatibilities

Storage	Remove all sources of ignition. Keep away from oxidising agents and strongly acid or alkaline materials. Take precautionary measures against static discharge. Ground / bond container and receiving equipment. Protect from sunlight. Do not expose to temperatures exceeding 50 °C /122 °F. Keep away from food, drink and animal feedingstuffs. Keep only in original container.
---------	---

7.3. Specific end use(s)

Specific use(s)	None known.
-----------------	-------------

SECTION 8: Exposure controls / personal protection

8.1. Control parameters

Control parameters comments	This information is not available.
-----------------------------	------------------------------------

8.2. Exposure controls

Precautionary measures to prevent exposure

Appropriate engineering controls	See section 7.1, 7.2
----------------------------------	----------------------

Eye / face protection

Eye protection equipment	Description: Usual safety precautions while handling the product will provide adequate protection against this potential effect. Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Reference to relevant standard: EN 166
--------------------------	---

Hand protection

Breakthrough time	Comments: As the product is a mixture of several substances, the durability of
-------------------	--

	the glove materials cannot be calculated in advance and has to be tested before use. Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Hand protection equipment	Description: Usual safety precautions while handling the product will provide adequate protection against this potential effect. Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Reference to relevant standard: EN 374, EN 420

Skin protection

Recommended protective clothing	Description: Usual safety precautions while handling the product will provide adequate protection against this potential effect. Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.
---------------------------------	---

Respiratory protection

Recommended respiratory protection	Description: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Use respirator when performing operations involving potential exposure to vapour of the product. In case of inadequate ventilation wear respiratory protection. The filter class for the respirator must be suitable for the maximum expected contaminant concentration (gas/vapour/aerosol/particulates) that may arise when handling the product. If this concentration is exceeded, self-contained breathing apparatus must be used. Reference to relevant standard: EN 140, EN 141, EN 149, EN 14387
------------------------------------	---

Thermal hazards

Thermal hazards	Not applicable.
-----------------	-----------------

Appropriate environmental exposure control

Environmental exposure controls	See section 6.2
---------------------------------	-----------------

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Form	Aerosol dispenser: spray aerosol
Colour	Ei sovellettavissa.
Odour	odourless
Odour limit	Reason for waiving data: No data.
pH	Comments: Ei sovellettavissa.
Melting point / melting range	Reason for waiving data: No data.
Boiling point / boiling range	Comments: -26°C
Flash point	Reason for waiving data: Not applicable

Flammability	Not applicable.
Lower explosion limit with unit of measurement	Reason for waiving data: No data.
Upper explosion limit with units of measurement	Reason for waiving data: No data.
Vapour pressure	Reason for waiving data: No data.
Vapour density	Reason for waiving data: Not applicable
Particle characteristics	Reason for waiving data: Not applicable
Relative density	Reason for waiving data: Not applicable
Density	Reason for waiving data: Not applicable
Solubility	Comments: Tietoa ei saatavilla.
Partition coefficient: n-octanol/water	Reason for waiving data: No data.
Auto-ignition temperature	Reason for waiving data: Not applicable
Decomposition temperature	Reason for waiving data: Not applicable
Viscosity	Type: Kinematic Reason for waiving data: Not applicable

9.2. Other information

Other physical and chemical properties

Physical and chemical properties	Tietoa ei saatavilla.
----------------------------------	-----------------------

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity	See section 5.2
------------	-----------------

10.2. Chemical stability

Stability	Stable
-----------	--------

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions	See section 5.2
------------------------------------	-----------------

10.4. Conditions to avoid

Conditions to avoid	See section 7.1, 7.2
---------------------	----------------------

10.5. Incompatible materials

Materials to avoid	See section 7.1, 7.2
--------------------	----------------------

10.6. Hazardous decomposition products

Hazardous decomposition products	See section 5.2
----------------------------------	-----------------

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Other information regarding health hazards

Assessment of acute toxicity, classification	Based on available data, the classification criteria are not met.
Assessment of skin corrosion / irritation, classification	Saatavilla olevien tietojen perusteella luokituskriteerit eivät täyty.
Assessment of eye damage or irritation, classification	Saatavilla olevien tietojen perusteella luokituskriteerit eivät täyty.
Assessment of respiratory sensitisation, classification	Based on available data, the classification criteria are not met.
Assessment of skin sensitisation, classification	Saatavilla olevien tietojen perusteella luokituskriteerit eivät täyty.
Assessment of germ cell mutagenicity, classification	Based on available data, the classification criteria are not met.
Assessment of carcinogenicity, classification	Saatavilla olevien tietojen perusteella luokituskriteerit eivät täyty.
Assessment of reproductive toxicity, classification	Saatavilla olevien tietojen perusteella luokituskriteerit eivät täyty.
Assessment of specific target organ toxicity - single exposure, classification	Saatavilla olevien tietojen perusteella luokituskriteerit eivät täyty.
Assessment of specific target organ toxicity - repeated exposure, classification	Saatavilla olevien tietojen perusteella luokituskriteerit eivät täyty.
Assessment of aspiration hazard, classification	Saatavilla olevien tietojen perusteella luokituskriteerit eivät täyty.

Symptoms of exposure

In case of ingestion	See section 4.2
In case of skin contact	See section 4.2
In case of inhalation	See section 4.2
In case of eye contact	See section 4.2

11.2 Other information

Endocrine disruption	This information is not available.
----------------------	------------------------------------

SECTION 12: Ecological information

12.1. Toxicity

Ecotoxicity	This information is not available.
-------------	------------------------------------

12.2. Persistence and degradability

Biodegradability	Method: QSAR Comments: Readily biodegradable
------------------	---

12.3. Bioaccumulative potential

Bioaccumulation, evaluation	Does not bioaccumulate.
-----------------------------	-------------------------

12.4. Mobility in soil

Mobility	This information is not available.
----------	------------------------------------

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB assessment	This information is not available.
------------------------------------	------------------------------------

12.6. Endocrine disrupting properties

Endocrine disrupting properties	This information is not available.
---------------------------------	------------------------------------

12.7. Other adverse effects

Additional ecological information	This information is not available.
-----------------------------------	------------------------------------

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Appropriate methods of disposal for the chemical	Dispose of product residue in accordance with the instructions of the person responsible for waste disposal. Avoid putting the substance into waste water.
Appropriate methods of disposal for the contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Where possible recycling is preferred to disposal. Do not pierce or burn, even after use.
EU Regulations	Directive 2008/98/EC of the European Parliament and of the Council on waste and repealing certain Directives

SECTION 14: Transport information

14.1. UN number

ADR/RID/ADN	1950
IMDG	1950
ICAO/IATA	1950

14.2. UN proper shipping name

Proper shipping name English ADR/RID/ADN	AEROSOLS
ADR/RID/ADN	AEROSOLS
IMDG	AEROSOLS

ICAO/IATA	AEROSOLS, FLAMMABLE
-----------	---------------------

14.3. Transport hazard class(es)

ADR/RID/ADN	2.1
-------------	-----

Classification code ADR/RID/ADN	5F
---------------------------------	----

14.4. Packing group

Comments	-
----------	---

14.5. Environmental hazards

Comments	No
----------	----

14.6. Special precautions for user

Special safety precautions for user	Tietoa ei saatavilla.
-------------------------------------	-----------------------

14.7. Maritime transport in bulk according to IMO instruments

Product name	AEROSOLS, FLAMMABLE
--------------	---------------------

Additional information

Hazard label ADR/RID/ADN	2.1
--------------------------	-----

Hazard label IMDG	2.1
-------------------	-----

Hazard label ICAO/IATA	2.1
------------------------	-----

ADR/RID Other information

Tunnel restriction code	D
-------------------------	---

Limited quantity	1 L
------------------	-----

Excepted quantity	E0
-------------------	----

Special provisions	190 327 344 625
--------------------	-----------------

Transport category	2
--------------------	---

ADN Other information

Special provisions	190 327 344 625
--------------------	-----------------

Limited quantity	1 L
------------------	-----

Excepted quantity	E0
-------------------	----

IMDG Other information

EmS	F-D, S-U
-----	----------

Limited quantity	1000 mL
------------------	---------

Excepted quantity	E0
-------------------	----

Special provisions	63,190, 277, 327, 344, 381, 959
--------------------	---------------------------------

ICAO/IATA Other information

Limited quantity	30 kg
Excepted quantity	E0
Special provisions	A145 A165 A802
Additional information ICAO/IATA	Cargo: max. 150 kg (203), Pas.: max. 75 kg (203)

SECTION 15: Regulatory information**15.1. Safety, health and environmental regulations / legislation specific for the substance or mixture**

Legislation and regulations	Council Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers The rules which cover amongst other things the requirement for ventilation, protective clothing, personal protective equipment etc. can be obtained from the National Occupational Health and Safety Board.
-----------------------------	---

15.2. Chemical safety assessment

Chemical safety assessment performed	No
--------------------------------------	----

SECTION 16: Other information

List of relevant H-phrases (Section 2 and 3)	H222 Extremely flammable aerosol. H229 Pressurised container: May burst if heated.
CLP classification, notes	Calculation method. Bridging principle "Aerosols"
Training advice	Provide adequate information, instruction and training for operators. To avoid risks to man and the environment, comply with the instructions for use.
Key literature references and sources for data	Information taken from reference works and the literature. http://echa.europa.eu http://eur-lex.europa.eu http://echa-term.echa.europa.eu Ingredient Safety Data Sheets
Abbreviations and acronyms used	CAS = Chemical Abstracts Service CLP = Classification, Labelling and Packaging DMEL = derived minimal effect level DNEL = derived no-effect level EC50 = The effective concentration of substance that causes 50% of the maximum response. ECHA = European Chemicals Agency EINECS = European Inventory of Existing Commercial Chemical Substances ELINCS = European List of Notified Chemical Substances EEA = European Economic Area EU = European Union EC number = The three European lists of substances from the previous EU chemicals regulatory framework, EINECS, ELINCS and the NLP-list, in combination are called the EC Inventory. The EC Inventory is the source for the seven-digit EC number, an identifier of substances commercially available within

	<p>the European Union.</p> <p>GHS = Global Harmonised System</p> <p>SDS = safety data sheet</p> <p>LC50 = median lethal concentration</p> <p>LDx = lethal dose x%</p> <p>LOAEC = lowest observed adverse effect concentration</p> <p>LOAEL = lowest observed adverse effect level</p> <p>LOEC = lowest observed effect concentration</p> <p>LOEL = lowest observed effect level</p> <p>NOAEC = no observed adverse effect concentration</p> <p>NOAEL = no observed adverse effect level</p> <p>NOEC = no observed effect concentration</p> <p>NOEL = no observed effect level</p> <p>PBT = persistent, bioaccumulative and toxic</p> <p>PNEC = predicted no-effect concentration</p> <p>ppm = parts per million</p> <p>QSAR = quantitative structure-activity relationship</p> <p>REACH = Registration, Evaluation, Authorisation and Restriction of Chemicals</p> <p>STOT = specific target organ toxicity</p> <p>UFI = unique formula identifier</p> <p>vPvB = very persistent and very bioaccumulative</p>
Information added, deleted or revised	Relevant changes compared to the previous version of the safety data sheet are indicated with verticle lines in the left margin.
