MID7108 is a new generation tablet computer or MID (Mobile Internet Device) based on the latest Android technology and the most updated silicon solutions.

Powerful A10 main chipset and advanced Graphics processor together with the effective WiFi connectivity creates the best opportunity to enjoy portable tablet features and have the best Internet experience, including Adobe Flash based content.

Due to solid multimedia functions and HDMI based TV output the end user is enabled to use the MID for the home cinema applications including Full HD 1080p and 3D movie on 3D TV playback.

The embedded 3200 mAh battery supports the longest active usage time - over 3 hours of continuous playback or internet browsing.

Internal 8Gb storage provides most space for favorite apps and data, this space can be significantly expanded up to 32Gb using the external Micro SD card.
